WHO WE ARE

Alinta Tech Solutions (also known as Alinta Tech) is a Managed IT Support Services and Technology Solutions Provider. Our services include comprehensive IT support functions, outsourced IT staffing and technology solutions designed to support the success and growth of small and medium-sized businesses.

OUR SERVICES

Our wide range of IT Support Services (Managed IT) and Technology Solutions are delivered by an experienced and friendly team of professionals dedicated to putting your business' success first. The most common needs that we can fulfil include;

MANAGED IT SUPPORT SERVICES

Server Management | Strategic IT Advisory | Cloud Services | Network Management | IT Security | Office 365 | VOIP | Fibre and other Data solutions

The Alinta Tech Engineers and Technicians are dedicated and friendly professionals with expertise in Server Management, Strategic IT advisory, Cloud Services, Network Management and IT Security, Office 365, VOIP and many other end user technologies.

This enables Alinta Tech to provide a full range of managed services from desktop support to small business through to fully outsourced IT to medium-sized enterprises in and around Gauteng mostly, but at selected localities outside Gauteng.

Tell us about your technology challenges and we will design a solution that will harness the technology to take your company forward.

Benefits

- Access to skills and advanced technology services not available in-house
- Reduced capital expenditure
- Opportunity to accelerate and support innovation
- Access to industry standard tools for IT monitoring and management
- Transfer of risk and service level to IT provider
- Improved flexibility in use of resources and focusing on core business

OUTSOURCED IT STAFFING

Permanent Staff Placement | Interim Talent Placement |
Outsourced IT Staff |

We keep your recruitment need simple. As an established Managed IT solutions company, first and foremost, Alinta Tech has a better understanding than most about finding and placing hard-to-find permanent and contract IT talent.

We can quickly find you highly skilled IT professionals who are the best fit for your project or permanent hiring needs. Using skills testing combined with the knowledge of our dedicated specialist technology recruitment consultants, we can match the right technology professional with the right role.

Permanent Placement

- Adding to your team can be fast and easy.
- Local talent specialists — We handle the entire hiring process for you, from promoting your job and company to extending offers and negotiating pay.

Interim Talent Placement

- Hire for your short-term, temp, fixed-term contractor, or project needs.
- Flexible, on-demand recruitment to help manage dynamic workloads, project work or employee absences.

Outsourced Staffing

Looking for staff to manage IT functions but not yet ready to recruit right away? Not all IT outsourcing companies are the same. At Alinta Tech, we can assist with outsourcing your IT Department functions. As a result, we are uniquely positioned to:

- Provide the right technology professional for the right role.
- Choose from a fully outsourced service where you have no in-house IT skills to a partnership where Alinta Tech experts work with your IT Manager and/or staff to complement your existing IT skill set.
- Provide overflow and staff augmentation services
- Offer support training

SOFTWARE SERVICES

Business Applications Development and Integration | Web applications |

Alinta Tech offers professional and affordable software development solutions. We can assist you with most software development and integration. We offer affordable payment option that can be incorporated into your existing SLA or paid off over 12 to 24 months depending on the scale of work.

Payment options can be negotiated depending on client's budgetary position. For example:

- Capex: 50% deposit on commencement of software development cycle and the difference after completion. A software support contract is optional.
- Opex: Relatively smaller monthly fee over a renewable contractual period of 12 or 24 months paid off in the contract period and includes software support.

IT RELOCATION

Safe and secure IT relocation with minimal disruption

Alinta Tech can plan and manage your IT relocation in Gauteng and surrounding areas. Our expert team will plan and manage every detail of a move, ensuring disruption to business activity is kept to a minimum by performing critical tasks out of hours where necessary. We de-rack and re-rack servers, asset tag hardware, and securely remove and dispose of redundant equipment if required. Safe and secure transport of IT equipment is arranged with our trusted logistics partner. Full cabling solutions are available, and we often perform pre-patch cabling ahead of time to get clients up and running as quickly as possible.

Secure server and infrastructure relocation

- Full cabling solutions
- Technical project management
- Out of hours available for minimal disruption

SPECIALIST SERVICES

Payroll Management - Sage Pastel & VIP | SAP Services |

Why should you outsource your payroll?
Small to medium sized businesses often experience trouble ensuring that their payroll adheres to the strict and complicated regulations as stipulated by SARS.
Large businesses can afford to maintain large payroll departments, but for small businesses an in-house payroll service can prove to be a money burner.
For a monthly retainer, Alinta Tech will run an efficient payroll process, which complies with various legislative requirements and caters for most African countries' tax requirements, resulting in a more accurate budget for your overhead costs, on the basis of a fixed retainer. Our monthly fees are charged per employee, or we charge a minimum fee.

SAP Services

With the right expertise and support, SAP solutions can help you quickly and successfully carry out your digital transformation. Find out what Alinta Tech can do for you as your SAP partner.

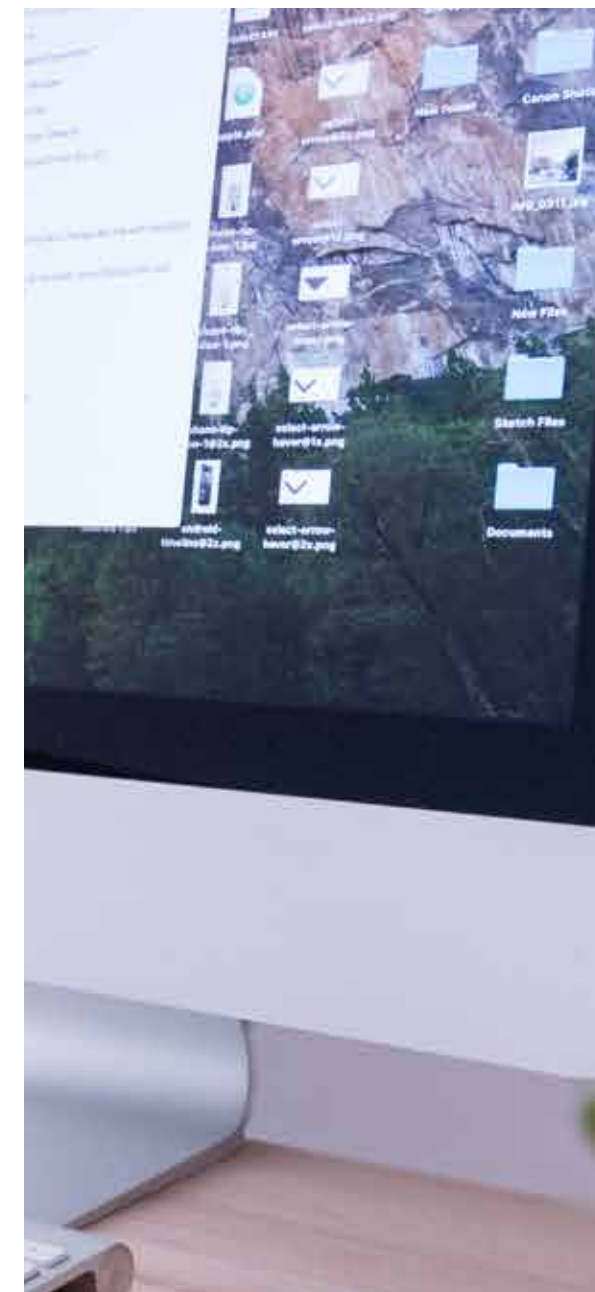

We Tailor-make customer SAP Implementation Strategy.

At the start of every project, we go the extra mile to gain a thorough understanding of our customers' business processes – because every business is different. Based on the strategy of consistent one method project methodology, we can create a tailored implementation strategy that helps you achieve your objectives quickly and efficiently. Our experts use SAP implementation best practices to ensure fast, cost-effective project completion. Finally, we train your employees to maximize their productivity – and can provide ongoing support and consulting after the go-live.

Payroll Services

With Alinta Tech as your payroll partner, we are able to provide these services:

- General ledger interface
- Payroll processing
- Payment processing
- Leave administration
- Statutory compliance
